25X1 4. [ ] GLC) Mr. Chretien advised of the receipt of a letter requesting information on the late President Kennedy. It was arranged that we would refer this letter to the office of Senator Edward Kennedy for reply. Mr. McIntyre, Administrative Assistant to the Senator, said they would be happy to handle this.

25X1 5. [ ] - GLC) Talked with [ ] CA Staff, concerning CA's memo of 16 March regarding possible contact with Senator Edward Kennedy on matters pertaining to the 9th World Youth Festival. Smith advised that Governor Harriman had suggested that the approach be made to Senator Robert Kennedy rather than Edward. Harriman has approached Robert Kennedy on this and he has agreed to make a speech on the floor of the Senate. CA Staff plans to be in touch with him upon his return to Washington. I suggested that Mr. Houston or Mr. Warner might accompany CA Staff representatives to their meeting with the Senator.

Mr. Smith also advised that Representative Ted Johnson was planning to go ahead with a speech on the Communist front 9th World Youth Festival. He has obtained floor time on 31 March for this purpose.

25X1 6. [ ] - GLC) Spoke separately to Messrs. Martin, Sourwine and McManus, Senate Internal Security Subcommittee staff, concerning the appearance tomorrow morning of [ ] before the Subcommittee. I was advised that the hearings now being conducted by the full Judiciary Committee on the Civil Rights bill will preclude any formal Subcommittee sessions tomorrow. However, the staff plans to go ahead with the [ ] interview on the basis of a staff conference. I warned these men not to expect too much from [ ] other than testimony of his own experiences. Sourwine said he was not expecting too much from [ ] but was planning his questions in a way that he could get into the record much of the material which we had previously provided Senator Dodd on Soviet murders, kidnapping and terrorist activities.
